A night sky with a crescent moon and clouds. The sky is dark blue with many small stars. The crescent moon is bright and yellowish-white. The clouds are white and fluffy, scattered across the sky.

LC-08

LC-09

A night sky with a crescent moon, stars, and clouds. The sky is a deep blue, and the moon is a bright white crescent. There are many stars of varying sizes and colors, and some clouds are visible. The overall scene is a serene night sky.

LC-10

LC-11

A night sky with a crescent moon, stars, and white clouds against a dark blue background. The sky is filled with numerous stars of varying sizes and colors, including bright white and yellow stars, and some fainter blue and purple stars. The clouds are white and fluffy, scattered across the sky. A bright crescent moon is visible in the upper right quadrant. The overall scene is a serene and beautiful representation of a clear night sky.
